"30 Years of Service and Quality"

OLAF MONRAD BULB CO., INC.

ELiot 8797 900 THOMAS STREET SEATTLE 9, WASH.

"OUR WAY OF BUSINESS" . . .

Personal Service—Finest Quality

On the following pages we are pleased to offer what we feel to be the finest in Northwest and Holland Import flowerbulbs.

Our policy is to supply the dependable quality we know **you** want—Bulbs that you can pass on to your customer with confidence.

All available advertising material will be sent at no charge. We will also have a good supply of full color pictures.

We will give all orders prompt attention and ship by the best, and most practical, method of transportation.

We hope this book will be your guide to **"buying with confidence."**

SEED

We are specializing in Calceolaria, Cineraria, and Cyclamen for those growers that are looking for the finest in finished pot plants. Growing habits, color range and flower size are all outstanding. Our seed is imported from one of the oldest and most reliable European seed houses. Once you have grown this strain, you will never change. Order today and compare it with the seed you are now using. Then you can see why we say "It is the finest obtainable."

CALCEOLARIA "Mona" — Choice Mixture of Tigred Varieties

Valuable Hybrid strain of dwarf, compact and entirely uniform habit. It is extremely free-flowering, and contains the finest colors in bronze, yellow and red shades. Flowers are large, well-shaped and beautifully tigred. Trade Packet: (1/140 oz. \$2.50) (1/112 oz. \$4.00) (1/56 oz. \$6.00).

CINERARIA — "Copenhagen Market"

Very fine free-flowering Hybrid strain with compact growth and attractive medium blossoms. Contain an outstanding mixture of colors ranging from modern rusted through salmon shades. Extra choice. Trade Packet: \$2.50.

CYCLAMEN — "Asmussen"

One of the best strains of unsurpassed quality. The leaves are beautifully marked and the large, well-formed flowers stand freely over the foliage. Very uniform in growth and colors.

SPECIALTY GIFT ITEMS

INDOOR PLANTER WITH BULB (Delivery after October 20)

This is a wonderful value at a popular price. Beautiful glazed ceramic planters containing large select bulbs. Three hand-painted Dutch designs in **7 different color combinations**. Attached drainage saucer. Bulbs planted dry—ready for your customer to water and watch grow! Planter cellophane wrapped with color picture and growing instructions. **Packed:** 24 per carton, 8 planters ea.; Paper White Narcissus, Soleil D'Or Narcissus and Hyacinths. **Size:** 3½x3½x3½". **Weight:** 30 lbs. **Cost:** \$16.00 carton. **Retail:** \$1.29 ea.

CERAMIC PLANTERS

Same type and size as planter with bulb, but **unplanted**. Attractive Pine Tree design also. Assorted planters may be ordered.

Cost: \$11.50 per carton (24); \$5.95 per dozen.

OBLONG PLANTER: 3½x3½x5¼" with attached drainage saucer. Bamboo Trees design. Choice of Tan color with Green trees, Dark Green with Tan trees or Red with Chartreuse trees.

Cost: \$6.95 per dozen.

GLADIOLUS GIFT BOX

Attractive 7"x9" full color box of 12 top size Gladiolus in most popular varieties. Available November 15th on, for **Christmas sales**. **Packed:** 21 per carton.

Cost: 69c ea.

Retail: \$1.25.

PINE CONES (Ready November)

Place orders **now** for Holiday sales! Jumbo cones in gleaming **Gold** or **Silver** color. Attractively packaged in cellophane, four per package—**Cost:** 35c pkg. **Retail:** 59c pkg.

Natural Cones**Cost:** 20c pkg. **Retail:** 35c pkg.

MICHIGAN PEAT

Michigan Peat is 97% organic matter, weed free and contains almost 3% available natural **nitrogen**.

Michigan Peat is **not** a sphagnum or moss peat—but a **sedge** type peat that is decayed vegetation from extensive deposits, centuries old. It is rich brown in color and furnishes the "humus" necessary for **greener** lawns—**stronger** root systems—**more abundant** roses—**blooms**—**flowers**—**healthier** plants and vegetables.

Michigan Peat is an "organic soil builder" and easy to use. No screening and breaking up to do. It is finely textured, uniform and makes gardening a pleasure. It absorbs moisture and releases nitrogen as it decomposes. Michigan Peat combines the benefits of peatmoss, humus and chemical conditioners in one "**all purpose**" **soil conditioner**. It is in a class by itself.

Michigan Peat is now offered in five convenient size packages to fit your needs.

Three **new** Michigan Peat Brand Products also available. Attractive polyethylene bags for counters.

S P E C I F I C

GENERAL

The METROLITE greenhouse is a prefabricated, factory painted and glazed, large-light, sash-type structure of conventional straight-eave design. The structure consists mainly of wood sash and framing members, all milled from clear all-heart sap-free California redwood (*Sequoia Sempervirens*), a species universally known for its long life properties.

Foundation work is reduced to a minimum. All that is necessary is a shallow foundation of 8" wide poured concrete or 8" concrete blocks. A substantial wood sill is provided with the greenhouse, being anchored to the foundation by means of anchor bolts.

The sidewall panels, 1 $\frac{3}{4}$ " thick, are for 2' 4" wide unit spacing, the panels having one light of 24" x 32" glass over a solid panel of waterproof plywood or other suitable material. The sidewall panels start at grade. Therefore, there are no masonry or wooden base walls to build above grade.

The roof panels, also 1 $\frac{3}{4}$ " thick, are for 2' 4" wide unit spacing, and are arranged to receive 24" x 32" glass. The roof ventilator sash are made in 4' 8" spacing units, arranged to receive two lights of glass, to match the roof panel spacing. They are arranged into a continuous run as is shown on the drawings.

Metropolitan's METROLITE prefabricating methods include factory drilling of all bolt holes in the sash panels for accuracy and greatest economy in field erection. Screw holes are not factory drilled as they may be done in the field with a push drill with equal economy and for greater accuracy. Long run members, such as sills, eaves, ridge and ridge cap, are factory splice cut and end cut for quick accurate field assembly.

Galvanized steel battens are provided to cover all roof and side panel joints to assure a tight, weather-proof job, to keep out the rain and to reduce heat losses.

A continuous wood member is provided along both eave lines. This member is designed to receive the lower rails of the roof panels, also the top rails of the side panels. Eave brackets are provided to tie side and roof panels securely together.

A wood ridge and ridge cap member is provided at the peak of the structure. Ridge brackets are used to tie roof panels and ridge securely together. Steel crosstie rods are provided at frequent intervals for added stability.

Standard glass gable ends consist of two main gable panels, 1 $\frac{3}{4}$ " thick (left hand and right hand), one door (or blank panel if door is omitted) and one panel above.

Standard greenhouse ventilating apparatus is included as standard equipment with the METROLITE.

METROLITE leanto models embody the same general features enumerated above PLUS the materials for the roof deck which is shown on the leanto drawing.

DETAIL

The doors are factory mortised to receive the locks and hinges. Mortising for the door lock strike plate is done by the purchaser for greatest accuracy in fitting the door. The appropriate gable sash panels are mortised to receive the door hinges. The steel crosstie rods, also all lugs and construction fittings, are completely shop fabricated, ready for installation.

CATIONS

All roof ventilating sash, roof, side and gable panels, also doors, are factory glazed with double strength clear glass, bedded in Metropolitan's famous greenhouse putty and secured with glazing nails. All wooden items are painted with two coats of Metropolitan "Dutch Boy" greenhouse white paint, prior to glazing. Paint materials are included, in addition, for a third, or dress-up coat after erection.

All panel sections and doors are carefully crated to assure safe arrival at destination.

Hardware items comprise Schlage type locks, galvanized steel door and sash hinges with brass pins. Eave brackets and ridge brackets are of bronze or of malleable iron, galvanized. All steel items such as side panel-sill lugs, crosstie rods, sash battens, also nails, bolts, and screws are furnished galvanized or otherwise thoroughly rust-proofed.

Ventilating apparatus provided with this structure is Metropolitan elbow-arm type, consisting of 1" galvanized steel pipe shafting, shaft hangers, shaft end plugs, elbow-arm type ventilator arms (lifters) and handchain-operated enclosed worm and gear type machine.

With the materials we provide a complete set of plans and details, easily followed, for guidance in field erection.

In some instances it may be desirable or necessary to have a WORKROOM attached to the METROLITE house, to provide for a complete self-contained unit. A suggested arrangement, Plan No. 2, is shown on drawing No. ML-1. We will be glad to mail the same upon request, also to quote prices.

Structurally the workroom is similar to the standard METROLITE. However, the roof would be glazed with double strength ground (frosted) glass to diffuse the sun's rays, or it can be covered with a suitable solid material.

PLANT BENCHES are furnished as a separate additional item. See price list. These benches are all-wood private house type. They have 2 x 4" rough redwood legs and crossbearers, 1" rough redwood bottom boards and surfaced sideboards and sideboard caps.

Wood legs are precut with lap joint, square shoulder end for rigid, square assembly with crossbearers. Crossbearers are cut to exact length with chamfered ends as required. Sideboards are surfaced one side and two edges. End and corner cutting of boards, an easy operation, is done by purchaser for greatest accuracy.

Necessary corner angles, nails, sideboard brackets, also paint for sideboards, are included.

SHELVES AND SHELF BRACKETS are also available at slight added cost. See price list. The shelf boards are 1" x 12" redwood, surfaced both sides. Shelf brackets are steel, of special design. They are supported by screws, on the sidewall panels. They may be easily lifted off when not required. Much added necessary space is available, at moderate cost, when needed.

The subject of HEATING is important. For small to average length houses, one or two oil burning space heaters, thermostatically controlled, with built-in circulating fans, will generally suffice. If desired, other types of heating systems can be provided. Prices and data are available upon application.

A flower-lover and his 14 year old son put up their METROLITE Greenhouse themselves . . . WITH NO OUTSIDE HELP WHATSOEVER! He reported that the plans were so simple to follow and each part fit together so perfectly that they DID NOT MAKE ONE ERROR IN ASSEMBLY!

The METROLITE GREENHOUSE has been designed to give you maximum sunshine in winter when you'll need it most. The METROLITE also gives off less shadows from girders, insuring a larger yield of whatever you'll be growing.
